Chapter 6

Conclusion and Scope for Future Work

The proposed project has been successfully completed. The web page creates a gateway between customer and our services. They can book their slots online and in case of more information they can contact us or can send mail to our email.

FUTURE ENHANCEMENT

There is still additional room for future upgradation that would improve quality of the web and make it more useful and user friendly. Some of the features that can be enhanced are:

- To add the menu of the dishes we serve .
- To make our customer satisfy by giving the traveling destination.
- To give the price pack of overall services .
